Who We Are

The mission of Arkansas Rehabilitation Services Subdivision is to assist persons with disabilities so they are empowered to become employed. Earning a living is a basic right and is valuable for both the individual and the community. A person with a disability faces barriers in various life activities that include the opportunities to train for, locate, and/or keep a job.

Arkansas Rehabilitation Services

Subdivision helps individuals overcome those obstacles by focusing on ABILITY rather than DISABILITY. It is good business for everyone. For every dollar spent in Arkansas on Vocational Rehabilitation, roughly seven dollars is returned to the state's economy.

With 18 offices statewide, along with the Arkansas Career Development Center in Hot Springs, ARS has counselors who serve each of the state's 75 counties. Counselors work out of regional offices and travel to specific locations in the counties they serve on a regular schedule to assure better accessibility of our services.

What We Do

- Transition services for students finishing high school.
- Services for those with special communications needs such as the deaf and hearing impaired.
- Specialized assessment and treatment.
- Vocational training at the Arkansas Career Development Center (ACDC).

ARS also works with private providers for specialized services.

Eligibility

Anyone who is a legal Arkansas resident and determined eligible for services can qualify.

Follow these steps:

- Call the office nearest you and set up an appointment for an initial interview with a counselor.
- Complete the application.
- Undergo an assessment that explores your background, abilities, interests and disability-related barriers to employment. This helps determine eligibility and forms a personalized plan for education, rehabilitation, and training needs.
- The determination of eligibility normally occurs within 60 days. That includes determining the extent of disability and the need for vocational rehabilitation services to prepare for, secure, retain or regain employment. *When funds are limited, services may be prioritized by need.*
- Develop an Individual Employment Plan, working in conjunction with your counselor. This is a mutually agreed upon plan as to the kind of job the client has chosen to work towards, the specific services needed, a realistic time frame in which to accomplish these goals and who is responsible for what.
- The training and rehabilitation services are provided and, when they are completed, the client will receive assistance in finding a job.

The result: A qualified individual who has attained the skills needed to become a valued employee and contributing taxpayer.
